**For both interior and exterior spaces,
Flooring solutions that completely dry one hour
after application!**

BOYDUR® INDUSTRIAL FLOORING SOLUTIONS

Boytorun Kimya Sanayi A.Ş. offers specially designed Boydur® branded Methyl Methacrylate (MMA)-based products for use in industrial areas. Developed to meet the specific needs of industrial facilities, these products boast rapid curing, high durability, and a wide range of applications.

1-Hour Fast Curing

Feature:

Provides rapid drying without disrupting production processes, offering efficient workflow. An ideal solution for emergency repairs.

Indoor and Outdoor Use

with Ease:

Resistant to all weather conditions, it adapts to a wide range of applications both inside and outside industrial facilities.

High Quality and Long-

lasting:

Produced from high-quality materials, it provides long-term performance. Enhances the durability of industrial facilities, minimizing maintenance costs.

PRODUCTS:

Floor Coatings:

Durable coatings specially designed for factory floors, warehouse areas, and production fields. Long-lasting solutions with outstanding chemical resistance.

Surface Protection Products:

Surface protection products developed to safeguard industrial structures against various weather conditions. Provides durability and long-term protection.

Floor Mortar Compounds:

Robust compounds to repair cracks and defects in industrial floors. Fast-drying feature that does not impact production processes.

Industrial Joint Fillers:

Solutions that excellently fill joints in industrial areas, preventing water leakage. Resistant to continuous high-traffic conditions.
