1-Hour Cure Professional MMA Floor Chemicals

Industrial Flooring & Infrastructure Solutions

Continuity in Operations & Traffic

Professional Floor Chemical Technologies

Boydur® systems;

consist of professional solution systems developed for high-performance industrial flooring and infrastructure applications.

Fast Cure

High Durability

Reduced Downtime

The Boydur® product family includes:

- Floor repair systems
- Industrial floor coatings
- Road marking systems
- Joint filling systems
- Resin technologies

Boytorun Kimya is also the official distributor of Vialit and Beton Asfalti products in Türkiye.

Floor Repair Systems

Professional solution systems developed for fast and durable floor repairs in heavy traffic and high-load areas.

Full Strength in 1 Hour
High Mechanical Durability
Reduced Downtime

Products

Boydur® M12

Fast-curing professional floor repair system.

Boydur® M12-A15

MMA solution developed for fine surface repairs.

Boydur® M12-A125

High-durability system developed for deep and heavy-duty repairs.

Boydur® A20 Filler Mortar

MMA filling system for void filling and surface leveling.

Boydur® Akribeton

High-load resistant MMA concrete system.

Industrial Floor Coating Systems

Professional floor coating solutions developed for heavy traffic, high loads and demanding working environments.

**Seamless & Homogeneous
Surface
Chemical & Mechanical
Resistance
Fast Cure Technology**

Products

Boydur® CK20

High-durability professional MMA coating system.

Boydur® M12-Akrimortar

Fast-curing mortar coating system combining repair and coating performance.

Boydur® Akrifleks

Flexible MMA coating system developed for vibration and thermal movement resistance.

Boydur® 410 Floor & Wall System

Seamless coating solution developed for floor and wall applications.

Road Marking Systems

Professional road marking solutions providing high visibility and long service life in heavy traffic areas.

High Visibility
Long Service Life
Fast Return to Traffic

Product

Boydur® Marker 564

Fast-curing high-performance road marking system.

Joint Filling Systems

Professional filling solutions developed for the protection of expansion and moving joints in concrete floors.

High Elasticity
Joint Edge Protection
Traffic Resistance

Product

Boydur® Akrigum

Flexible filling system developed for expansion and moving joints.

Surface Protection Systems

Professional protection solutions developed to improve concrete durability and extend surface life.

Deep Penetration

Reduced Dust Formation

Improved Surface Durability

Product

Boydur® A10

Professional solution system developed for concrete surface protection and strengthening.

Resin Technologies

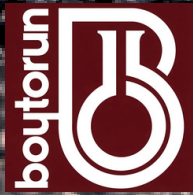

High-performance resin technologies forming the foundation of Boydur® systems.

Fast Reaction Technology
High Mechanical Durability
Wide Application Range

Product

Boydur® 564 Resin

Professional resin solution used in floor coating, road marking and floor repair systems.

Vialit Asphalt Systems

Professional solution systems developed for fast and safe asphalt maintenance applications in heavy traffic areas.

Fast Return to Traffic
High Durability
Practical Application

Products

Vialit® Rephalt

Professional asphalt repair system with fast return to traffic.

Vialit® Refug

Reactive joint filling system developed for infrastructure joints.

Vialit® Stradalan

Cold-applied asphalt binder and surface improvement system.

Vialit® Stradakol

Reactive binder developed for asphalt maintenance and repair applications.

Vialit® Antiklapper Pads

Professional pad system reducing noise and vibration on manhole covers.

Beton Asfalti Systems

Professional solution systems developed for fast maintenance and repair applications on concrete and asphalt surfaces.

Fast Application

Reduced Traffic Interruption

Long-Lasting Repair

Products

Malta Rapid Pro

Fast-curing repair mortar developed for concrete and asphalt surfaces.

Kalt Asphalt Plus

Cold asphalt repair system developed for rapid maintenance applications.

EcoAsphalt®

Eco-friendly cold asphalt system produced with 100% recycled aggregate.

Sigil Rapid Plus

Fast sealing system developed for cracks and surface defects.

Asphalt Repair Web

Professional reinforcement mesh improving asphalt repair durability.

Malta Rapid Fluid

Flowable repair solution developed for fine cracks.
