FLAGSHIP SECTOR CATALOG

INDUSTRIAL FLOORING SOLUTIONS

Factory · Warehouse · Logistics · Process Area

Rapid commissioning, safer surfaces and heavy-traffic durability.

BOYDUR® INDUSTRIAL SYSTEMS

SINCE 1965

THE OPERATIONAL FOUNDATION

FLOORING IS PART OF THE OPERATION.

01

RAPID COMMISSIONING

Short curing times with suitable Boydur® MMA systems help reduce planned downtime.

02

SAFER SURFACE

Slip resistance, visibility and site traffic are assessed together.

03

LONG SERVICE LIFE

The right system build-up is defined for mechanical and chemical exposure.

WHY BOYDUR®?

INDUSTRIAL PERFORMANCE AS A COMPLETE SYSTEM.

Product selection is based on the type of damage, traffic load, chemical exposure, slip-resistance needs and the available closure window.

01

RAPID CURING

Short waiting times designed to align with the operational plan.

02

HEAVY TRAFFIC

A system build-up for forklifts, pallet trucks, heavy machinery and pedestrian traffic.

03

CHEMICAL RESISTANCE

Selection according to oil, fuel, solvents, cleaning chemicals and process exposure.

04

WORKPLACE SAFETY

Slip-resistant surfaces, clear markings and controlled traffic zones.

05

LOW MAINTENANCE

Correct detailing helps reduce repeat repair and unplanned downtime.

FROM DAMAGE TO SOLUTION

THE RIGHT SYSTEM FOR EACH NEED

This guide provides an initial direction. The final system is confirmed after substrate assessment and site conditions have been verified.

- | | | | |
|----|------------------------|---------------------------------------|--|
| 01 | POTHOLE · BREAK · EDGE | Boydur® M12 · Akribeton | Rapid heavy-duty repair |
| 02 | JOINT · CRACK | Akrigum · M12-A15/A125 · Vialit Refug | Controlled filling and floor integrity |
| 03 | SURFACE COATING | Akrifleks · CK Range · Akrimortar | Mechanical and chemical resistance |
| 04 | SAFETY MARKING | Marker 564 · Perfekt 564 | High visibility and rapid curing |
| 05 | ANCHORING · FOUNDATION | Boydur® M12 · Akribeton | Securing equipment and structural components |

ASSESSMENT · SURFACE PREPARATION · SYSTEM SELECTION · APPLICATION CONTROL

RAPID CONCRETE REPAIR

TAKE CONTROL OF DAMAGE FAST.

- System selection for forklift and heavy-machinery loads
- Targeted return to service in a short time
- Suitable for local and structural repair details
- Compatible with planned maintenance programs

FEATURED PRODUCTS: BOYDUR® M12 · AKRIBETON

MMA ROAD AND FLOOR MARKING

TURN VISIBILITY INTO SAFETY.

- Suitable for indoor and outdoor applications
- Separation of pedestrian and forklift traffic
- Resistance to abrasion and intensive site traffic
- Integration with colored zones and safety areas

FEATURED PRODUCTS: MARKER 564 · PERFEKT 564

MMA INDUSTRIAL FLOORING SYSTEMS

ONE SURFACE AGAINST MECHANICAL AND CHEMICAL EXPOSURE.

- System selection for aggressive process environments
- Adaptation to drains, plinths and detail zones
- Surface texture for slip resistance and cleaning
- Integration with colored areas and markings

FEATURED PRODUCTS: AKRIFLEKS · CK RANGE · AKRIMORTAR

RAPID INDUSTRIAL JOINT FILLERS

PROTECT FLOOR INTEGRITY AT THE JOINTS.

- Controlled filling according to joint type and movement
- Selection for abrasion and chemical exposure
- Targeted return to traffic in a short time
- Reduced repeat damage at joint edges

FEATURED PRODUCTS: AKRIGUM · M12-A15/A125 · VIALIT REFUG

SYSTEMS BY FACILITY

THE RIGHT APPROACH FOR EVERY INDUSTRIAL AREA

- **Factories and production lines**
- **Industrial zones**
- **Warehouses and logistics centers**
- **Maintenance areas and workshops**
- **Fuel facilities**
- **Chemical process areas**
- **Car parks and ramps**
- **Loading and traffic zones**
- **Pedestrian and forklift safety routes**

ONE TECHNICAL APPROACH FROM SITE ASSESSMENT TO PRODUCT SELECTION

LET'S DESIGN THE RIGHT FLOOR TOGETHER.

Site assessment, system selection and product consultancy for your industrial facility.
